After hearing more from Matt, he wants to make sure that both Angelo Logan and Father John hear our position from us rather than any other parties.

The call went well and the county is pleased with our responsiveness. Joel had previously suggested a call with father John. That seems like a better next step to me and then decide after that whether to do this type of meeting or something else.

All, I just heard back from Matt. He has suggested we be proactive about calendaring something with Jared, the County and the EJ groups rather than waiting to be asked and if possible, he'd like to be included in that. He's anticipating that he will get a fair amount of incoming on this and wants to be part of the discussion with Jared.

Thoughts about how we should handle this? I'm so sorry about my schedule today, I have to leave shortly for my doctor appointment.

Great. I'll see those of you that can make it in my office at 3:45 and we can patch in John.

I think it would be good to all meet in one office for the call. I'm fine with that being Kathleen Salyer's office.

Kathleen S – should we meet in your office for this call?

Subject: Exide call with LA County

Angelo Bellomo and Barry Groveman from LA County confirmed their availability for tomorrow (8/20), 4-5pm for EPA to update them on the actions we've taken on Exide. We'll be using the SCFO conference line for the call: 866-299-3188, conference code 2004273885.

The plan is to update the County on what EPA has done, in terms of conversations with DTSC, South Coast, and others and in terms of any on-site inspection work by EPA. We've been focusing our discussions on Exide relative to permitting, enforcement and the clean-up effort and those are the issues we should be presenting to the County tomorrow. When the County approached EPA, their request was for EPA to take a stronger role (or take the lead) on these issues. I think the general consensus is that DTSC and SCAQMD are currently managing these efforts appropriately and that EPA will continue to stay engaged and monitor the progress by the State.

Logistics for the call – we'll be using the SCFO conference line so each of you can call in individually, if you like. Or, you can gather together and call from an office or conference room (I'll leave that to you in SF to decide). Kathleen S asked for the opportunity to discuss strategy before the call with the County, so I would propose EPA folks get on the conference call at 3:45 for a 10 minute discussion prior to the County joining the call at 4pm.

Thanks!

Steven
